 Advisors: [Daniel Benarroch](#), [Michael Adjedj](#) [🌐 Blog]
 > Identifying and implementing the best possible ways to construct HE circuits for comparison and sorting integer data.
- Non-Interactive Proof Generation from Interactive Zero Knowledge Protocols** May'20 - Aug'20
 Advisors: [Dr. Dhinakaran Vinayagamurthy](#), [Nitin Singh](#) [🌐 Repository]
 > Designed a modular framework for Interactive Zero Knowledge Protocols which was used to convert it to a non-interactive protocol. Implemented additional features for the design to support oracles, protocol composition, etc.. and tested existing protocols like Ligerio on it.
